United States European Command

Brig Gen Thomas J. Verbeck

Director, Command, Control, Communications and Warfighting Integration

Commander's Vision

"We seek a Europe that is a global partner for peace and security,
an Africa that is self-sufficient and stable,
and a Broader Middle East at peace
founded on
a transformed, expeditionary USEUCOM advancing U.S. interests forward that promotes regional security and stability, through
enduring cooperation with a transforming and expanding NATO,

the development of other capable regional security organizations,
and effective security cooperation programs."

General James L. Jones

EUCOM Area of Responsibility

W. Europe & NATO

Russia

Central & Eastern Europe

North Africa Middle East

Black Sea/Caucasus Region

Sub-Saharan Africa

<u>91 Countries</u>

50 million sq km of land

35% of Earth's landmass

220,000 km of coastline

60% of planet's coastline

70 million sq km of water

The New Strategic Environment

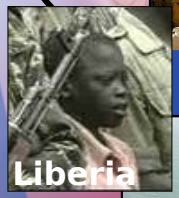
The West

Arc of Stability

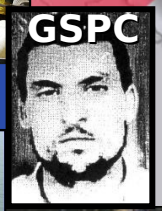
Arc of Instability

Caucasus/Black Sea

Middle East



Africa



- NATO can provide the vehicle for creating security and stability in new regions
- European and U.S. cooperative engagement creates conditions for economic growth in these critical regions
- New partnership with Russia

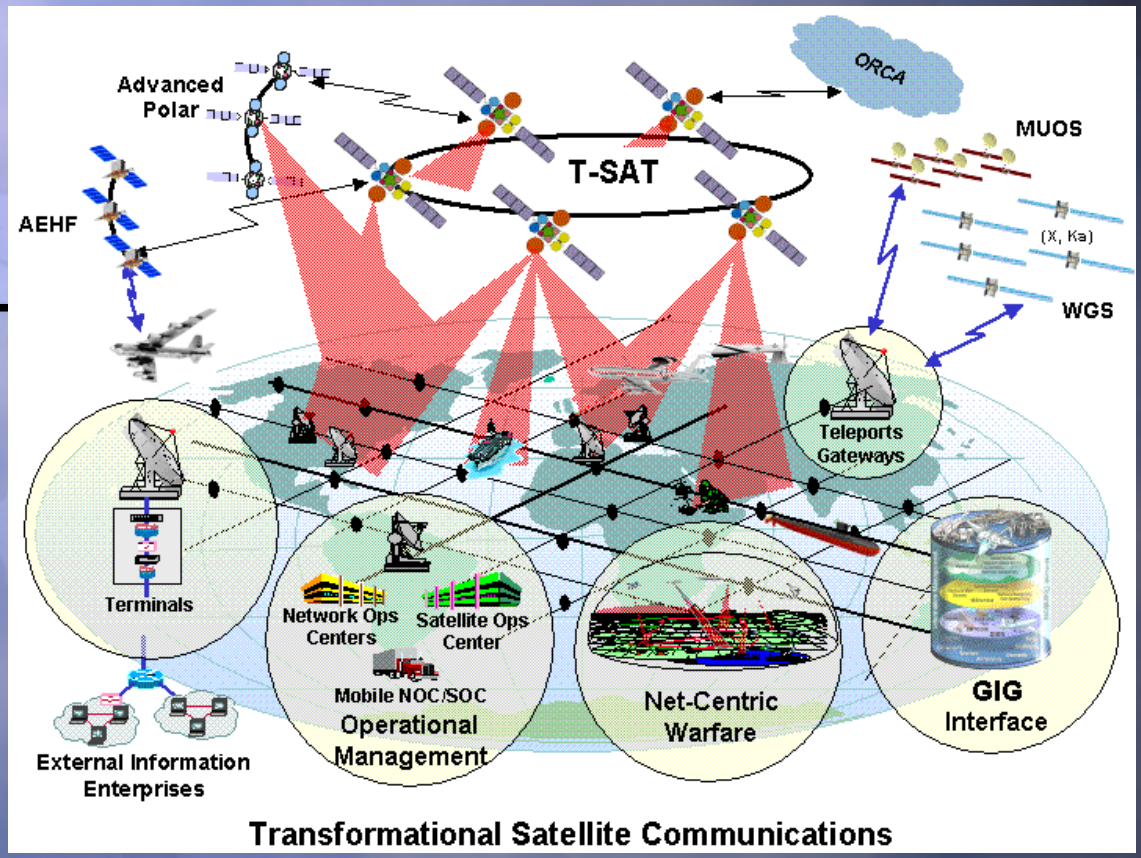
Unclassified

"We have a potential to apply 21st Century technology and 21st century transformation to still what is, for us in Europe, a 20th century basing strategy. "We will be looking at ways to transform to a more effects-based strategy for the future, which allows us to be more flexible, perhaps more agile and to engage in more areas of our standard area of responsibility to the east and to the south."

General Jones

CHANGING DOCTRINE

- LASER COMM
- TRANSFORMATIONAL COMMUNICATIONS ARCHITECTURE
- DATALINK
- NETWORK SECURITY
- SPECTRUM MANAGEMENT



It's Not Just Signal Anymore

In Conclusion …. Recognize the “charlatans with respect to “network” disciplines

People say or believe that:

1. **Information technology decisions are first and foremost technical determinations**
2. **Limited bandwidth is the root of their problem**
3. **There is such a thing as a computer network**
4. **CND protects networks**
5. **Server location is important**
6. **Their application doesn’t have a major impact on network performance or other applications**
7. **Leasing is cheaper than owning**
8. **Corporate America designs and runs better networks**

POINTS FOR SUCCESS

1. Integrity …. Expect it!

2. Do unto others … as you would have them do unto you (Go

3. Be an expert …know your business

Never, Never, Never GIVE UP

4. PROFESSIONAL:
Operator first … technocrat s

5. Practice your Art.

6. Be Sharp …at work and at pla
